While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Red Herring Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. - 1. Our business is intricately tied to the academic cycle, making it somewhat cyclical in nature. As a result, our revenue and profitability may not be comparable from one period to another.*

The sale of our books under the K-12 business are linked to the academic cycle, and is, therefore, seasonal in nature. In the K-12 segment, majority of the sale starts with the beginning of the new academic year i.e. first and fourth quarter. In addition, the working capital cycle for publishing and printing tends to be unduly high at the fiscal year end on account of high sales in the specific quarter, which comes down significantly in the subsequent periods. Below are the details of the quarter-wise sale % of the company during the last three financial years—

(Amt in Rs. Lakhs)

Year	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total
March 2024	5587.68	(13.96)	(436.99)	4213.82	9350.55
March 2023	5227.80	113.28	(445.85)	2660.48	7555.71
March 2022	2217.25	573.33	(322.23)	1840.70	4309.05

Our sales seasonality in our K-12 segment materially affects our operating revenue, margins and cash flows from period to period. Accordingly, our operating revenues and margins may be higher during one quarter of the year as compared to another quarter. As a result, our period-on-period data regarding our operating revenue, margins and cash flows may not be comparable for any future fiscal periods.

2. *Our product is subject to changing examination paper pattern and syllabus, and customer preferences, our inability to meet such needs or preferences may affect our business.*

The success of our products depends on the content which we provide and the its ability to meet the end user's requirement based on changing examination paper pattern and syllabus, and evolving customer preferences.

The acceptability of these products depends on the capacity of these books to stay ahead of changing customer requirements and remain attuned to emerging preferences. A failure to do so could result in a difference between our contents and the current demands of the market, potentially impacting our revenue from operations, customer satisfaction, and overall business performance.

It is very important for our Company to maintain a robust feedback loop with customers, closely monitor industry trends and invest in research and development to anticipate and respond to evolving demand in the education sector. This serves as a strategic approach not only for meeting current demands but also for staying ahead of competitors and fostering long-term customer loyalty in the domain. In case we fail to respond to the frequently changing syllabus, education patterns and customer preferences, this may have an adverse impact on our business operation, revenue from operations and profitability.

3. *The contents of the books we publish and the authors who drafts these content are very significant for our business. The loss of all or any of our authors could adversely affect our business, results of operation, cash flows and financial condition.*

We operate in an environment where there is intense competition for successful authors. The success of our business largely depends on the quality of the content we prepare and publish which directly depends on the authors and editors who are involved in the preparation and finalization of the contents. We have over the years, developed a team of authors and editors who are involved in the preparation and updation of the content published in the books. In case, we lose any of our authors or editors due to any reason beyond our control like better opportunities provided by the competitors, independent working by the authors etc. we may be required to make alternative arrangement for the content development and upgradation. In case we are not able to make suitable arrangement for the same we may have an adverse effect on our business operation, future revenue and profitability. Further, the heavy dependence on these authors and editors increases the risk that the loss of, or problems with, any author could have significant effect on our sales and profitability.

4. *We generate our major portion of revenue from Maharashtra Board and CBSE and any adverse developments affecting our operations with them could have an adverse impact on our revenue and results of operations.*

We generate majority of our revenue from selling our books for the Maharashtra State Boards and CBSE. Apart from the sale of books for Maharashtra State Board and CBSE, we also export our books to countries like UAE and Sri Lanka. For the financial year ended March 31, 2024, March 31, 2023 and March 31, 2022 we derived major portion of our revenue from the Maharashtra State Board and CBSE. For the financial year ended March 31, 2024, March 31, 2023 and March 31, 2022, we derived major portion of our revenue from the state of Maharashtra i.e. 61.69%, 66.12% and 64.83% respectively. Due to the geographical concentration of our revenue and operations at Maharashtra, our operations are prone to local, regional and environmental factors, thus any materially adverse social, political or economic development, civil disruptions, or changes in the policies of the state government or state or local governments and require a modification of our business strategy or require us to incur significant capital expenditure

or suspend our operations. Any such adverse development affecting our continuing operations could result in significant loss due to an inability to meet customer orders, which could materially affect our business reputation within the industry. Further, as we enter into new State education board or any new geographical areas, we are likely to compete with not only national players, but also the local players, who might have an established local presence, and are more familiar with local business practices and have stronger relationships with local distributors, dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into other areas may adversely affect our business prospects, financial conditions and results of operations.

5. Our business and results of operations may be adversely affected by factors such as general economic conditions, changes in the educational policies of the government and changes to the syllabus and curriculum standard and Stock damages.

The performance and growth of our businesses which could be adversely affected by general economic conditions and other factors outside of our control. In response to general economic conditions, private schools and school organisations may reduce educational spending to protect against existing or expected economic conditions or seek cost savings for the end customers being students. Similarly, changes in the procurement process for print content, binding and content editing could also affect our markets and sales.

Further, our business, results of operations and financial condition may be materially adversely affected by changes in educational syllabus and curriculum of schools coupled with any delays in our ability to adapt to the changes in the syllabus and curriculum and educational processes in a timely manner. These changes may adversely affect our inventory of books as we may be left with print content which is no longer viable. In the event there are significant changes in the curriculum and we are unable to update our educational materials to such changes in a timely and cost-efficient manner, or if it is required to discontinue certain titles, our business, results of operations and financial condition could be materially adversely affected.

Further, the Company may face challenges of damaged stock, which can occur during the transit. Materials may get damaged while being transported or while in storage.

6. Our promoters and directors are involved in certain legal proceedings.

Our Promoters and Directors is involved in certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts and forums. Mentioned below are the details of the proceedings involving our Company as on the date of this Red Herring Prospectus along with the amount involved, to the extent quantifiable.

Sr. No.	Name of Entity	Criminal Proceedings	Tax proceedings	Material civil litigation	Aggregate amount involved (₹ in lakhs)*
4.	Company

*To the extent quantifiable

For further details of litigation proceedings, please refer the chapter titled “Outstanding Litigations and Material Developments” on page 219 of this Red Herring Prospectus

7. *We have had negative net cash flows in the past and may continue to have negative cash flows in the future*

The following table sets forth our cash flow for the periods indicated:

	<i>(Amount in ₹ Lakhs)</i>		
Particulars	March 31, 2024	March 31, 2023	March 31, 2022
Cash flow from operating activities	693.37	166.26	550.41
Cash flow from investing activities	(27.17)	(179.46)	(5.66)
Cash flow from financing activities	(482.51)	(191.45)	(208.18)

Cash flows of a company is a key indicator to show the extent of cash generated from the operations of a company to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations. For further details, see section titled “Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 154 and 209, respectively of this Red Herring Prospectus.

8. *Any rise in costs or a deficiency in the availability of the raw materials we procure could impact on our company's sales, profitability, and operational results in an adverse manner.*

Our Company is dependent on third party suppliers for procuring the raw materials and other designing and decorative bought out material which we use to print and publish the books which we sell to our customers. We are exposed to fluctuations in the prices of these materials as well as its unavailability, particularly as we typically do not enter into any long-term supply agreements with all our suppliers and our major requirement is met in the spot market. The cost and availability of such materials are subject to a variety of factors and any increase in their cost and their availability at a reasonable price or at all, could adversely affect our margins, sales and results of operations. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of materials. If we were to experience a significant or prolonged shortage of such materials from any of our suppliers, and we cannot procure the products from other sources, we would be unable to meet our execution schedules and to deliver our products to our customers in timely fashion, which would adversely affect our sales, margins and customer relations. We cannot assure you that a particular supplier will continue to supply the required materials to us in the future. Any change in the supplying pattern of our products can adversely affect our business and profits.

9. *Our results of operations and cash flows could be adversely affected, if we are unable to collect our dues and receivables from our customers in a timely manner.*

Our business depends on our ability to successfully obtain payment from our customers of the amounts they owe us for work performed. There can be no guarantee that we will be accurate in assessing the creditworthiness of our customers. Such conditions could cause clients to delay payment, request modifications of their payment terms, or default on their payment obligations to us, all of which could increase our receivables. If we are unable to meet our contractual obligations, we might experience delays in the collection of, or be unable to collect, our client balances, and if this occurs, our results of operations and cash flows could be adversely affected

10. *We operate in markets which are dependent on IT systems and technological change. If we are unable to keep our systems and technologies updated, it will adversely affect our business conditions.*

We use IT systems and products to support our business activities. As our operations grow in size and scope, we must continuously upgrade our systems and infrastructure, while maintaining the reliability and integrity of our systems and infrastructure in a cost-effective manner. We face several technological risks associated with software product development and service delivery in our educational businesses, information technology security (including virus and hacker attacks), e-commerce, enterprise resource planning, system implementations and upgrades. In particular, the provision of our QR code product depends on the capacity, reliability and security of our hosting and electronic delivery systems. Any failures of our systems whether as a result of operational failures, tampering or hacking, human error, natural disasters, computer viruses or other factors could disrupt our operations, interrupt their availability or

result in loss of data. The occurrence of such problems or other operational disruptions could result in liability or harm to our reputation which in turn could adversely affect our business, results of operations and financial condition.

11. Our business may be impacted by technological change, including the digital evolution and other disruptive technologies, and the presence and development of open-sourced content could continue to increase, which could adversely affect our revenue.

Post the impact of covid -19 pandemic, digital migration has brought changes in the content distribution, consumers' perception of value and the content provider's position. Though we have taken substantial steps towards the digitalization of the contents for better understanding through our QR Code system of digital learning for our customers, but if we are unable to adapt or move towards digitalization at the rate of our competitors, our ability to effectively compete in the marketplace will be adversely affected. Further, technology has generally resulted in short lead times for producing products that meet customer specifications. Shorter time to market our products increases the risk that our products may contain flaws or corrupted data, and these defects may only become apparent after product launch, particularly for new products and new features to existing products that are developed and brought to market under tight time constraints which could result in liability, loss of revenue or harm to our reputation.

Further, with the increase in digitalization free or relatively inexpensive educational products are becoming increasingly accessible, through the internet and some governmental and regulatory agencies have increased the amount of information they make publicly available for free. To the extent that such open-sourced content is developed and made available to educational content customers in India and is competitive with our materials, our sales opportunities and net sales could be adversely affected. Technological changes and the availability of free or relatively inexpensive information and materials may also affect changes in consumer behaviour and expectations. These free or relatively inexpensive information and lower pricing of digital educational products may reduce demand and impact the prices we can charge for our products and services. To the extent that technological changes and the availability of free or relatively inexpensive information and materials limit the prices we can charge or demand for our products and services, our business, financial position and results of operations may be materially adversely affected.

12. Our business depends on our reputation and customer perception of our brand, and any negative publicity or other harm to our brand may materially adversely affect our business, results of operations and financial condition.

We also believe our reputation has helped us attract and retain customers who use our products throughout the education cycle. As a result, our reputation and customer perception of our brands are critical to the success of our business. However, our ability to maintain our brand recognition depends on a number of factors, some of which are beyond our control. Maintaining and enhancing our reputation and brand recognition depends primarily on the quality and consistency of our print content and educational offerings, as well as the success of marketing and promotional efforts by us and our distributors. Maintaining and enhancing our brands is essential to our efforts to maintain and expand our customer base. If customers do not perceive our products to be of high quality or differentiated owing to its content, our brand image may be harmed, thereby decreasing the attractiveness of our print content and educational offerings.

Further, it is possible that our marketing and promotional initiatives may be insufficient or unsuccessful in increasing awareness of our brand. Any failure to allocate appropriate resources to brand investment, to refine our existing marketing approach or to introduce new marketing approaches and marketing channels in an effective manner could reduce our market share, cause our revenue to decline and negatively impact our profitability. Additionally, if our competitors increase their spending on marketing and promotions, our marketing or promotions could become less effective than those of our competitors, and we could experience a material adverse effect on our business, financial condition and results of operations.

13. Inventories and trade receivables constitute a major part of our current assets. Inadequate management of these assets could negatively impact our net sales, profitability, cash flow and liquidity.

Our Company's business is working capital intensive and hence, inventories and trade receivables form a major part of our current assets We work on an asset light model where we focus on content creation, distribution and marketing activities. The printing and binding activities are outsourced to third party vendors. Under this business model, a

certain portion of our assets comprises of an inventory of raw materials and finished products. Maintaining sufficient inventory is critical for our operations which could act as a buffer against any supply disruptions. Any failure on our part to effectively manage our inventory in response to changing market scenario may have an adverse effect on our financial condition and may even lead to loss of business and increase the costs of our operations. During the year ended March 31, 2024 FY 2022- 23 and 2021-22 our inventories were ₹ 3242.54 lakhs, ₹ 2460.79 lakhs, and ₹ 2124.81 lakhs. To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if we fail to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. During the year ended March 31, 2024, FY 2022-23 and FY 2021-22 our trade receivables were ₹ 5256.91, ₹ 4285.66 lakhs, and ₹ 3526.76 lakhs respectively. Further, the amount of trade receivable exceeding 365 days during the year ended March 31, 2024, FY 2022-23 and 2021-22 were ₹ 677.85 Lakhs, ₹ 925.66 lakhs and ₹ 932.95 lakhs respectively.

We may be subject to working capital risks due to delays or defaults in payment by clients, which may restrict our ability to procure raw materials and make payments when due. In addition, any delay or failure on the part of the clients to make payment of the amount dues may lead to legal consequences with our customers. Such defaults/delays by our customers in meeting their payment obligations to us may have a material effect on our business, financial condition and results of operations. A liquidity crunch may also result in case of increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

14. Illegal copying of our books and piracy of our digital content, can affect our sales and future growth.

The success of our business largely depends on the quality of the content i.e. published or digital which we prepare and publish. The sale of our books and the acceptability of our books and digital content to a large extent depends on the quality of the contents we offer. In case of any illegal copying of our books or any piracy of the digital contents, which we are not able to detect may have an adverse effect on our business operation, future revenue and profitability. Further, even if we are able to detect such illegal copying or piracy, we may not be able to defend the same in our favour and may subject us to legal proceeding and have an adverse effect on our business operations and financial position.

15. Our company has been recently formed by conversion of the erstwhile LLP into the company, thus we have limited operating history as a Company which may make it difficult for investors to evaluate our historical performance or future prospects.

Our Company was incorporated as a limited Company under the Companies Act, 2023 with Registrar of Companies, dated January 21, 2024. The company has been incorporated by conversion of the erstwhile LLP, thus we have limited operating history as a company from which one can evaluate our business, future prospects and viability. Our future business operation and financial position may not comparable with that of the LLP and difficult to estimate and could fluctuate significantly and as a result the price of our Equity Shares may remain volatile. Although , our overall presence in the publishing business is of over three decades , as the Limited liability partnership firm has been converted into the public limited company on a going concern basis but, there can be no assurance that we will be able to successfully pursue our growth strategies, or that pursuing these strategies will provide us the anticipated benefits post conversion of the LLP to company. Any inability to pursue our growth strategies successfully or at all, or an inability to manage our growth, may adversely affect our prospects. For further details, see the chapter titled “History and Corporate Structure” and “Restated Financial Statements” on page 131 and 154 respectively of the Red Herring Prospectus.

16. We do not own the registered office and other premises used by our Company for business purposes. In case of non-renewal of lease agreements or dispute in relation to use of the said premise, our business and results of operations can be adversely affected

As on the date of this Red Herring Prospectus, the premises on which our Registered Office and certain of our branch offices, and warehouse are held by us on a leasehold basis or a leave and license basis. While we typically enter lease or license arrangements that provide the lessor or licensor with the right to terminate upon notice or to renew with the terms mutually agreed on between the parties. Although our premises of registered office and warehouse belong to the

Promoters /Promoter Group. If any of the Property Arrangements are terminated, we may be unable to procure premises like the ones on which we currently operate and may suffer a disruption in our operations or be required to pay increased rental rates, which could have a material adverse effect on our business, results of operations and financial condition. Additionally, four of our rent agreements for our Branch are due for renewal and we are yet to apply for the renewal of the same. Also, we are yet to apply for change in the name of our Company instead of LLP in these lease agreements. If any of our leases are not renewed or are not renewed on terms and conditions that are favourable to us, we may suffer disruptions in our operations which could have a material adverse effect on our business. Additionally, we may be required to change the locations of our leased premises, and we may be unable to recover the costs of moving. If we are forced to move, we may also be required to obtain fresh regulatory licenses and approvals for new locations. Until we receive such approvals and licenses, we may suffer disruptions in our operations which may adversely affect our business, results of operations and financial condition.

Further, in the event of default on behalf of the lessor/licensor, we may be unable to enforce our leases/licenses if such lease or license is not duly registered. For lease/license agreements that are deemed as insufficiently stamped, we may be required to pay additional stamp duty or make similar payments, which could have an adverse effect on our business, results of operations and financial condition.

Title to the properties we lease could be affected by improperly executed, unregistered or insufficiently stamped conveyance instruments, unregistered encumbrances in Favor of third parties, rights of adverse possessors, ownership claims of family members of prior owners or third parties, or other defects. In addition, there may be other irregularities, defects, non-compliance, or unsettled claims in relation to the properties that we lease or hold on a leave and license basis from time to time. Any of the above factors may affect uninterrupted possession and use of the properties we occupy, cause us to incur significant additional compliance costs or rental expenses, which may adversely affect our business, results of operations and financial condition.

17. Unexpectedly large amount of sales returns could adversely affect our financial results. If we are unable to accurately forecast customer demand, we may not be able to maintain adequate inventory levels.

We typically permit our distributors to return products that they purchase from us if the products are not sold within a prescribed time period or if the product does not conform to specifications such as printing error or any other damage at the same cost for which the products were purchased from us. If we receive a greater number of returns than expected, based on historical averages, our business and operations could be adversely affected and we may incur significant expenses associated with such returns.

Further, printing of our content and other products is decided based on management estimates of demand using historical sales data which is used to judge the future sales pattern and we start printing before the preparation of an order book. If we fail to accurately forecast customer demand, we may experience excessive inventory levels or a shortage of products available for sale. There can be no assurance that we will be able to successfully manage our inventory at a level appropriate for future customer demand.

18. We currently rely on third parties for our printing and publishing requirements. Any inability to obtain sufficient quantities of printing of the requisite quality in a timely manner and at acceptable prices, or a slowdown, shutdown or disruption in such third parties' operations and performance, could adversely affect our business, results of operations and financial condition.

We believe in an asset light model of business. We are currently focusing on the activities relating to content creation, marketing and distribution of the books published through our network of dealers and distributors. Pursuant to this approach, we outsource our printing activities to third party suppliers. Apart from the printing activities, we outsource the QR code and digital content creation activities to Allern Enterprises Private Limited. We rely on these third parties to provide us with an uninterrupted supply of their services. However, we cannot assure you that they may do so in a timely manner, or if at all. These third parties may decide not to accept our future orders on the same or similar terms, or at all. We may face the risk of our competitors offering them better terms, which may cause them to cater to our competitors alongside, or even instead of us. They may discontinue their work on short notice and our production process may be stalled or hindered due to this.

Further, in case of increased customer demand for our products, we may need to obtain these services more from third parties, and any inability to do so may render us unable to execute our growth strategy. Additionally, our job workers processing facilities may be subject to operating risks, such as performance below expected levels of efficiency, excessive wastage of raw materials, delays in production, decrease in quality of products made, labour disputes, natural disasters, industrial accidents, interruptions in power supply and statutory and regulatory restrictions. In addition, we cannot ensure that the processes done by them on products will be of satisfactory quality. Any failure to adhere with quality may damage our reputation, and adversely affect our business, results of operations and financial condition. Any defects in the products they supply could expose us to product liability or damage our reputation and reduce demand for our products.

19. Our inability to expand or effectively manage our distribution network may have an adverse effect on our business, results of operations and financial condition.

Over the years, our company generates the sales from schools and other customers through its own sales team and the orders are generally given through the dealers dealing with the relevant school. Our ability to expand and grow our product reach significantly depends on the reach and effective management of our dealership network. We continuously seek to increase the penetration of our products by appointing new dealers targeted at different customer groups and geographies. We cannot assure you that we will be able to successfully identify or appoint new dealers or effectively manage our existing network. We may be unable to appoint replacement in a timely manner, or at all, which may reduce our sales volumes and adversely affect our business, results of operations and financial condition. We typically do not have any exclusive agreements with many of our dealers and while we offer them certain incentive schemes to distribute our products, we may not be able to effectively implement them across our distribution network.

Also, our competitors may adopt innovative distribution models, which could be more effective than the distribution models adopted by us resulting in a reduction in the sales of our products. We may also face disruptions in the delivery of our products for various reasons beyond our control, including poor handling of our products, transportation bottlenecks, natural disasters and labour issues, which could lead to delayed or lost deliveries. In addition, failure to provide distributors with sufficient inventories of our products may result in a reduction in the sales of our products. If our distributors fail to distribute our products in a timely manner, or loss of any of our dealers may adversely affect our business and results of operations.

20. Our ability to enforce our intellectual property and proprietary rights may be limited, and any increase in unauthorized copying and distribution of our productions could harm our competitive position and materially adversely affect our business and results of operations.

Our intellectual property rights are important to our business. Our portfolio of intellectual property includes logos and trademarks. We own 13 trademarks, which are registered in the name of the erstwhile LLP firm and applied by 3 trademarks of which 2 are currently objected relating to our publishing business, which helps us in differentiating our products with our competitors. Also, we are yet to apply for the change in the status and name in the Trademark registration required pursuant to the conversion of the LLP into the Company. Though, we take proactive steps in case we find any unauthorized use of the logo or the trademark owned by our company. However, we cannot be certain that the steps we have taken will prevent unauthorized use of our intellectual property. Third parties may infringe upon or misappropriate our intellectual property. The misappropriation or duplication of our intellectual property could cause damage to our business prospects, reputation and goodwill, distract our management and employees, reduce our revenue and increase our expenses. The competitive advantage that we derive from our intellectual property may also be diminished or eliminated. We may need to litigate to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others; any such litigation could be time-consuming and costly and a favourable outcome cannot be guaranteed. Moreover, we may not be able to detect any unauthorized use or be able to take appropriate and timely steps to enforce or protect our intellectual property. For further details, see “Business – Intellectual Property” on page 108 of this Red Herring Prospectus.

Further, we have not registered some of the trademarks which are used as brand for our business, we may be susceptible to claims from third parties asserting infringement and other related claims. If claims or actions are asserted against us, we may be required to defend the same or obtain new logo or trademark which could be extremely costly. In addition, we may decide to settle a claim or action against us, the settlement of which could be costly. We may also

be liable for any past infringement. Any of the foregoing could adversely affect our business, results of operations and financial condition.

21. We operate in a highly-competitive and disintegrated industry, and our business, results of operations and financial condition may be adversely affected if we are not able to compete effectively.

The Indian market for education content is highly competitive and fragmented. The Indian education market consist of multiple boards, including the state education boards, the Central Board of Secondary Education (“CBSE”), and the Indian Certificate of Secondary Education (“ICSE”). Further, there are only a few large, established industry participants similar to us, as the market is characterized between smaller regional, state and local content providers and also includes subject specific content providers for particular subjects or course material. Also, many of the content providers have strong brand recognition in the markets and long-term relationships with schools, school authorities and educational authorities. Further, we also face competition from the National Council of Educational Research and Training (“NCERT”) and the State Council of Educational Research and Training (“SCERT”), which publish books for the K-12 market at subsidized costs. Additionally, intense competition may require us to price our products competitively and provide purchasing incentives to our dealers, distributors and customers. Failure to do so may result in the reduction of our sales in the market. Our future success depends on our ability to compete effectively, including distinguishing our products, content or services from our competitors, by expanding our brands and titles, by providing higher quality content, expanding our distribution, sales and marketing forces, etc. We cannot assure you that we will be able to sufficiently and promptly respond to changes in customer preferences and other competitive practices in the future, nor can we assure you that we will be able to maintain or increase our existing market share.

22. We may not be able to effectively implement our business and growth strategies and achieve future growth.

We operate in a dynamic industry, and on account of changes in market conditions, industry parameters, or technological improvements, our management is required to continually assess our strategies to position us for future growth. Our business strategy is to expand our presence in the Maharashtra, CBSE Boards in different States and other boards and strengthening technology enabled system including digital media. Our growth strategies and plans may undergo changes or modifications from time to time, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands. We may not be able to efficiently or effectively implement our growth strategies or manage the growth of our operations and any failure to do so may limit future growth and have an adverse effect on our business. Further, revenues may not grow as quickly as we currently expect, and we may be incorrect in our assumptions and expectations of consumer requirements and changing technologies. Also, the fund requirement and deployment for our strategies are based purely on management estimates and assumptions considering the current market scenario and are subject to revision in the light of changes in external circumstances or costs. If we are unsuccessful in executing our strategic plan, or if the underlying estimates or assumptions used to develop our strategic plan are materially inaccurate, our business and financial condition would have an adverse impact.

23. The success of our business is dependent on our warehouse and logistics capabilities, and disruptions in operations and supply chain could reduce or restrict sales and materially adversely affect our business, results of operation, cash flows and financial condition.

Our business is dependent on our warehouse and logistics capabilities. We have developed a supply chain by rationalizing and integrating our procurement, manufacturing and logistic capabilities. Our logistics network, which as on January 2024, comprised of one warehouse located in Bhiwandi, Maharashtra and C&F agencies space used for logistics with overall built up area of about 70,000 sq ft to allow coverage across India, including where, we have entered into consigning and forwarding agreement for the distribution of our Books in North India and South India. Further, we have fleet of around 13 vehicles, apart from the owned vehicles we also use the services of various local carriers to transport our inventory between our warehouse and our distributors and dealers. Transportation delays, disruptions and accidents can disrupt our operations from time to time.

If our warehouse or logistics operations are substantially disrupted, we may not be able to replace the equipment or inventories, or use a different facility to continue our operations in a timely and cost-effective manner or at all. In addition, while our facilities have been insured, we may not be able to recover from damage or interruptions caused in a timely manner, or at all. The occurrence of any such event could result in the temporary or long-term closure of

our warehouse. The occurrence of any of the above could materially adversely affect our business, results of operation, cash flows and financial condition.

24. We are required to obtain, renew or maintain certain statutory and regulatory permits and approvals required to operate our business and if we fail to do so in a timely manner or at all, our business, financial conditions, results of operations, and cash flows may be adversely affected

We require certain statutory and regulatory licenses, registrations and approvals to operate our business. Many of these approvals are granted for specific duration and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will renew such licenses, registrations and approvals in a timely manner or at all. We need to initiate the process of changing our Company name in all our registrations and statutory approvals, updating them to reflect our new status. Any delay or failure to do so could have an adverse effect on our business and results of operations.

Further, these licenses, registrations and approvals are subject to several conditions, and we cannot assure that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, and this may lead to cancellation, revocation or suspension of relevant licenses, approvals and registrations. Failure by us to renew, maintain or obtain the required licenses or approvals, or cancellation, suspension, or revocation of any of the licenses, approvals and registrations may result in the interruption of our operations and may have a material adverse effect on our business, results of operations and financial condition. For further details of the approvals yet to be obtained by us, and please see the chapter titled “Government and Other Statutory Approvals” beginning on page 235 of this Red Herring Prospectus.

25. Any unsecured loans drawn by us may be recalled by the lenders at any time, which may adversely affect our business, financial condition, results of operation and prospects.

Our Company has availed unsecured loans which may be recalled by lenders at any time with or without the existence of an event of default, on short or no notice. As of March 31, 2024, such loans amounted to ₹ 1306.21 lakhs. In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, any such demand may materially affect our business, cash flows, financial condition and results of operations. For further details, please see the section entitled “Statement of Financial Indebtedness” on page 205 of this Red Herring Prospectus.

26. Our success depends largely on the continued efforts of our senior management and our ability to attract and retain skilled personnel.

Our future success depends on the continued services and performance of the members of our management team and other key employees. We may not be able to retain our existing senior management or attract and retain new senior management in the future. Our competitors, with greater financial capabilities, may offer such personnel higher salaries and greater benefits than we are able to offer, which may impact our ability to attract and retain personnel. The loss of the services of key persons in the organization could seriously impair our ability to continue to manage and expand our business. Further, the loss of any other member of our senior management or other key personnel may adversely affect our business, results of operations, financial condition and cash flows.

Further, we incur significant costs to retain our personnel and such costs have increased in recent years in view of the general growth in our business and industry and we may need to continue to increase the levels of compensation to our personnel to remain competitive and manage attrition. Such increase in compensation may have an adverse effect on our business, results of operations and financial condition.

27. Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.

Our ability to pay dividends in the future will depend on our earnings, financial condition, future cash flows, working capital requirements, capital expenditure and restrictive covenants of our financing arrangements. The declaration and payment of dividends will be recommended by the Board of Directors and approved by the Shareholders, at their

discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act, 2013.

We may retain all future earnings, if any, for use in the operations and expansion of the business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot assure you that we will be able to pay dividends in the future. For details of our Dividend history refer to the Section “*Dividend Policy*” on page 153 of the Red Herring Prospectus.

28. *Fluctuation in foreign currency exchange rates could affect our financial condition and results of operations.*

Our business includes export transactions with foreign companies, which is received in foreign currencies. Any appreciation of Rupee against these foreign currencies would adversely affect the export value of our products. During the year ended March 31, 2024, FY 22-23 and FY 2021-22 the exports accounted for approximately Rs.7.80 lakhs, Rs. 12.49 lakhs and Rs. 7.03 lakhs respectively. The exchange rate between the Rupee and these foreign currencies has fluctuated substantially in recent years and may continue to fluctuate significantly in the future. The foreign exchange gain/(loss) for year ended March 31, 2024, FY 2022-23, and 2021-22 accounted for Rs. 3.46 Lakhs, Rs. 0.24 lakhs and Rs. 0.24 lakhs respectively. We bear the complete risk of currency exchange rate fluctuations.

29. *Our Group Company and certain of our promoter group entities are engaged in the similar line of business as of our Company. There are no non - compete agreements between our Company and such entities. We cannot assure that our Promoters will not favour the interests of such entities over our interest or that the said entities will not expand which may increase our competition and may adversely affect business operations and financial condition of our Company.*

Our Group Company, namely, Chetana Publication Private Limited and certain of our promoter group entities are engaged in the business of printing and publication of books for the education industry in India, which is the same line of business of our Company. Further, we have not entered into any non-compete agreement with any of the said entities. We cannot assure that our Promoters who have common interest in said entities will not favour the interest of the said entities. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and aforesaid entities in circumstances where our respective interests diverge. In cases of conflict, our Promoters may favour other entities in which our Promoter has interests. There can be no assurance that our Promoters or our Promoter Group entities will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

30. *Any adverse revision to our credit rating by rating agencies may adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such funding is available.*

The borrowing facilities availed by our company from bank are rated by a credit rating agency. The credit ratings assigned to our Company, by ICRA Limited vide a letter dated December 12, 2023 was Long Term Rating – ICRA BB and Short Term Rating – ICRA A4+, which is valid till December 04, 2024. Any downgrade in our credit ratings by rating agencies in future may increase our costs of accessing funds in the capital markets and adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such funding is available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures or other purposes.

31. *Our Group Company have incurred losses in past and any operating losses in the future could adversely affect the results of operations and financial conditions of our group company.*

The details of profit and loss of our Group Company in past years are as follows: -

Group Company	For the year ended on (in Rs. Lakhs)
----------------------	---

	March 31, 2023	March 31, 2022	March 31, 2021
Chetana Publication Private Limited	(17.68)	(2.24)	12.08

Any operating losses could adversely affect the overall operations of the group and financial conditions and also divert the attention of the management and promoter towards the group company which could have an adverse effect on our operations and financials. For more information, regarding the Company, please refer chapter titled “Our Group Companies” beginning on page 240 of this Red Herring Prospectus.

32. *We may not be able to detect or prevent fraud or other misconduct committed by our employees or third parties.*

Fraud or other misconduct by our employees, such as unauthorized business transactions, bribery may be difficult to detect or prevent. It could subject us to financial loss while seriously damaging our reputation. While we have not experienced any material instances of fraud or other misconduct in the past, we cannot assure you that fraud or other misconduct will not occur in the future. In such event, our ability to effectively attract prospective stakeholders, obtain financing on favourable terms and conduct other business activities may be impaired.

33. *The Promoters and the Promoter Group may retain majority control of the Company after the Issue, and may have interests that are adverse to, or conflict with, the interests of other shareholders.*

For further details of their current shareholding, see the section entitled “Capital Structure” on page 68. The extent of their shareholding in our Company may also delay, prevent or deter a change in control, even if such transaction is beneficial to other shareholders.

Further, the interest of our Promoters as our controlling shareholders could also conflict with our interest or the interest of our other shareholders. We have in the past and will continue to enter into related party transactions with our Promoters. We cannot assure you that our Promoters will act to resolve any conflicts of interest in our favour and they may take actions that are not in the best interest of our Company or that of our other shareholders.

34. *We have entered certain related party transactions, which may involve conflicts of interest, and we may continue to do so in the future.*

We have in the past, and expect to continue to enter into, transactions with related parties in the ordinary course of business. For information on related party transactions please see the section entitled “Related Party Disclosures” on page 189. Our related party transactions include, remuneration, loan, sales, purchases and rent transactions with different related parties. We may enter similar arrangements in the future with respect to our facilities and services. Although, we believe that all these past transactions have been entered in compliance with the applicable laws and confirm that the future transactions shall be in compliance with Companies Act and other applicable laws and Regulation.

We cannot assure you that we will be able to maintain the terms of such transactions or in the event that we enter future transactions with related parties, that the terms of the transactions will be favourable to us. Total	9.43	8.77	8.70

In the event any such contingencies described were to materialize or if our contingent liabilities were to increase in the future, our business, results of operation, cash flows and financial condition could be adversely affected. For further details, see the section entitled “Financial Statements” on page 196.

36. Our insurance coverage is limited and may not adequately protect us against all material hazards.

While we are covered against certain risks, but our insurance coverage is limited. Our significant insurance policies consist of coverage for risks related to burglary insurance policy, standard fire and special perils policy, marine sales turnover policy and vehicle insurance policy. We have insurance policies covering our vehicles, fire and special perils insurance for some of our facilities and premises, including the equipment contained therein.

While we believe the policies that we maintain would be adequate to cover all normal risks associated with the operation of our business, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have obtained sufficient insurance (either in amount or in terms of risks covered) to cover all material losses. To the extent that we suffer loss or damage for events for which we are not insured or for which our insurance is inadequate, the loss would have to be borne by us, and, as a result, our business, results of operations and financial condition could be adversely affected.

37. Our operations could be adversely affected if we fail to comply with the laws and regulations of India and the conditions stipulated in our licenses, permits or approval.

There can be no assurance that we have been or will be in complete compliance with all laws, regulations and permits or that we have been or will be able to meet the relevant requirements set by the authorities at all times. We are required to obtain various licenses, permits and approvals for our operations, including but not limited to certain business-related licenses, and failure to obtain and maintain any licenses, permits and approvals necessary to operate our business may have a material adverse effect on our business and operations. Breach or non-compliance with the laws and regulations may result in the suspension, withdrawal or termination of our business licenses or permits, or the imposition of penalties, by the relevant authorities.

38. If we are unable to maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.

We take reasonable steps to maintain appropriate procedures for compliance and disclosure and to maintain effective internal controls over our financial reporting so that we produce reliable financial reports, and prevent financial fraud. As risks evolve and develop, internal controls must be reviewed on an ongoing basis. Maintaining such internal controls requires human diligence and compliance and is therefore subject to lapses in judgment and failures that result from human error. Any lapses in judgment or failures that result from human error can affect the accuracy of our financial reporting, resulting in a loss of investor confidence and a decline in the price of our shares.

We and our operations are subject to anti-corruption laws and regulations. These laws prohibit us and our employees and intermediaries from engaging in bribes or making other types of prohibited payments to prohibited persons to gain a business advantage. If we break any of the anti-corruption laws, we may be subject to criminal and civil penalties, disgorgement, other sanctions and remedial measures, as well as associated legal expense, which could have an adverse impact on our business, results of operation, cash flows and financial condition.

39. *Any variation in the utilization of the Net Proceeds as disclosed in this Red Herring Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval.*

We propose to utilize the Net Proceeds for the following purposes:

- Repayment in full or in part, of certain loans availed of by our Company from other parties; and
- For additional working Capital Requirement
- General corporate purposes.

For further details of the proposed objects of the Issue, see the section titled "Objects of the Issue" on page 78. In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds as disclosed in this Red Herring Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI ICDR Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected.

Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition, and may adversely affect our business and results of operations.

40. *We have overseas exports and operations and are subject to risks associated with doing business internationally.*

We exported our print content to country outside India, which subject is to risks associated with doing business internationally. There are a number of risks in having overseas operations and sales, where we have less experience, including political and economic uncertainty, social unrest, sudden changes in laws and regulations, shortages of trained labour and the uncertainties associated with entering joint ventures or similar arrangements in foreign countries. These risks may impact our ability to expand our operations in different regions and otherwise achieve our objectives relating to our foreign operations. In addition, compliance with multiple and potentially conflicting foreign laws and regulations, import and export limitations and exchange controls are burdensome and expensive. Our foreign operations also subject us to the risks of international terrorism and hostilities and to foreign currency risks, including exchange rate fluctuations and limits on the repatriation of funds.

41. *Certain documents in relation to educational qualifications and experience for certain of our Directors and Key Management Personnel are not available and reliance has been made on declarations and affidavits furnished by such Directors and Key Management Personnel for details of their profiles included in this Red Herring Prospectus.*

Our Promoter and Director Anil Jayantilal Rambhia has been unable to trace copies of documents pertaining to their educational qualifications and prior experience. Accordingly, reliance has been placed on declarations, undertakings and affidavits furnished by him to us, to disclose details of their educational qualifications and professional experience in this Red Herring Prospectus. We have been unable to independently verify these details prior to inclusion in this Red Herring Prospectus. Further, there can be no assurances that our Directors and Key Management Personnel will be able to trace the relevant documents pertaining to their qualifications and prior experience in future, or at all.

42. *Our debt financing agreements contain restrictive covenants that may adversely affect our business, credit ratings, prospects, results of operations and financial condition.*

Certain of our debt financing agreements contain restrictive covenants and/or events of default that limit our ability to undertake certain types of transactions. These agreements also include various conditions and covenants that require us to obtain lender consents prior to carrying out certain activities. These debt financing agreements also require us to maintain certain financial covenants. For further details, please see the section titled “Financial Indebtedness” on page 205.

We cannot assure you that we have complied with all such restrictive covenants in a timely manner, or at all, or that we will be able to comply with all such restrictive covenants in the future. Further, during any period in which we are in default, we may be unable to raise, or may face difficulties raising, further financing. In such eventuality, other third parties may have concerns over our financial position. Any of these circumstances could adversely affect our business, credit ratings, prospects, results of operations and financial condition. Additionally, any such action initiated by our lenders could result in the price of the Equity Shares being adversely affected.

43. *Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.*

Our Company is engaged in publication and sales of educational books which are exempt from GST and subject to Income Tax, and Professional Tax as per the applicable provisions of Law. We are also subject to the labour laws like depositing of contribution with Provident Fund and ESI. Though, we have deposited the required returns under various applicable Acts but any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of the Company.

44. *The average cost of acquisition of Equity Shares by our Promoters, could be lower than the issue price.*

The details of average cost of acquisition of Equity Shares of our Promoters are as under:

Sr. No.	Name of the Promoters	No. of Shares held	Average cost of Acquisition (in ₹)
1.	Anil Jayantilal Rambhia	69,00,000	10.00
2.	Rakesh Jayantilal Rambhia	69,00,000	10.00
3.	Shilpa Anil Rambhia	1,50,000	10.00

Accordingly, our Promoters’ average cost of acquisition of Equity Shares in Company may be lower than the Issue Price decided by the Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and buildup of Equity Shares by our Promoters in our Company, please refer to the chapters “Capital Structure” beginning on pages 68 of this Red Herring Prospectus.

45. *Our company has encountered challenges in meeting the designated timelines for filing statutory returns, which may subject us to penalty under the relevant laws.*

There have been delays in filing GST, EPF and ESIC returns by our Company. After conducting an internal review, we have identified that the primary reasons for these delays are related to reconciliation and operational issues. Delays in the submission of these returns may result in financial penalties and potential legal consequences, which may affect our operations. Furthermore, delayed provident fund and ESIC returns can adversely affect our relationship with regulatory authorities, potentially leading to increased scrutiny and further financial repercussions. To address this

issue, we have implemented corrective measures to mitigate future delays. These measures include - Enhancing our reconciliation process to minimize discrepancies, implementing improved cash flow forecasting and management practices, strengthening communication and coordination within our team to expedite return filing.

46. *Our Company has allotted Equity Shares during the preceding one (1) year from the date of this Red Herring Prospectus which may lower than the Issue Price.*

In the last 12 (twelve) months, we have issued and allotted certain equity shares at a price which may be lower than the Issue Price which is as follows:

- Allotment of 1,50,00,000 equity shares to the Partners of the LLP against their capital account pursuant to the conversion of the LLP into Company on January 21, 2024

The Equity Shares allotted to investors pursuant to this Issue may be priced significantly higher due to various reasons including better performance by the Company, better economic conditions and passage of time. For further details of equity shares issued, please refer to the chapter titled “Capital Structure” beginning on page 68 of this Red Herring Prospectus

47. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule.*

The proposed fund requirement for our working capital requirement, as detailed in the section titled "Objects of the Issue" is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled “Objects of the Issue” beginning on page 78 of this Red Herring Prospectus.

48. *Certain key performance indicators for certain listed industry peers included in this Red Herring Prospectus have been sourced from public sources and there is no assurance that such financial and other industry information is complete*

Pursuant to the requirements of the SEBI ICDR Regulations, we have included certain key performance indicators, comprising financial and operational information, for certain listed industry peers, in the “Basis for Issue Price” beginning on page 87 of the Red Herring Prospectus. Although this information is sourced from and relied upon on the audited financial statements of the relevant listed industry peers as available on the websites of the Stock Exchanges, including the annual reports of the respective companies submitted to Stock Exchanges, there is no assurance that this information with respect to industry peers is either complete. There may be different methodologies and formulas used to compute the various ratios.

49. *Our operations are subject to high working capital requirements. Our inability to maintain an optimal level of working capital required for our business may impact our operations adversely.*

Our business requires significant amount of working capital and major portion of our working capital is utilized towards operating expenses, inventories, trade receivables and cash and cash equivalents. As on the date of this Red Herring Prospectus, our working capital facility and overdraft facility stood at Rs. 4030 lakhs from The Saraswat Co-op Bank and ICICI Bank Limited. Our growing scale and expansion, if any, may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. Further, we have high outstanding amount due from our debtors which may result in a high risk in case of non-payment by these debtors. In case of any such defaults from our debtors, may affect our business operations and financials. For further details regarding working capital requirement, please refer to the section “Objects of the Issue” on page 78 of this Red Herring Prospectus.

- 50. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Investors are not permitted to withdraw their Bids after closure of the Issue.**

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid, and are not permitted to withdraw or lower their Bids (in terms of quantity of equity shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/Issue Period and withdraw their Bids until closure of the Issue.

Therefore, QIBs and Non-Institutional Investors would not be able to withdraw or lower their Bids, notwithstanding adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition, or otherwise, between the dates of the submission of their Bids and the Allotment.

- 51. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.**

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law, including those related to class actions, may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as a shareholder in an Indian company than as a shareholder of a corporation in another jurisdiction.

- 52. The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. Any variation between the estimation and actual expenditure as estimated by the management could result in execution delays or influence our profitability adversely.**

The deployment of funds as stated in the "Objects of the Issue" beginning on page 78 of the Red Herring Prospectus is entirely at the discretion of our management and has not been appraised by any independent agency. Further, the purposes for which the Net Proceeds are to be utilized have not been appraised by an independent entity and are based on our estimates. In the event, for whatsoever reason, we are unable to execute our plans, we could have a significant amount of unallocated net proceeds.

In such a situation, we would have broad discretion in allocating these net proceeds from the Issue without any action or approval of our shareholders. In case the assumptions on which these estimates have been made are not correct or they become un-realistic then there will be a variation in the estimates and the actual expenditure incurred which could result in execution delays and have an adverse effect on our operations and profitability. The cost estimated by our management are based on their experience. However, we may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control, such as interest rate fluctuations, changes in input cost and other financial and operational factors. Accordingly, prospective investors in the issue will need to rely upon our management's judgment with respect to the use of proceeds. If we are unable to deploy the proceeds of the issue in a timely or an efficient manner, it may affect our business and results of operations

- 53. There is no monitoring agency appointed by our Company to monitor the utilization of the Issue proceeds.**

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above Rs.10,000.00 Lacs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

- 54. Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.**

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

- 55. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.***

The issue price of the equity shares has been based on many factors and may not be indicative of the market price of our Equity Shares after the Issue. For further information please refer the section titled “Basis for Issue Price” beginning on page 87 of the Red Herring Prospectus. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price.

- 56. *We have not independently verified certain data in this Red Herring Prospectus.***

We have not independently verified data from the Industry and related data contained in this Red Herring Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

EXTERNAL RISK FACTORS

- 57. *Significant differences exist between Indian GAAP and other accounting principles, such as US GAAP, Ind (AS) and IFRS, which may be material to investors' assessments of our financial condition.***

We prepare our annual and interim financial statements under Indian GAAP. We have not attempted to quantify the impact of US GAAP, IND AS or IFRS on the financial data included in this Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IND AS or IFRS. US GAAP, IND AS and IFRS differ in significant respects from Indian GAAP. Accordingly, the degree to which the Indian GAAP financial statements, which are restated as per SEBI ICDR Regulations included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian GAAP and accounting practices. Any reliance by persons not familiar with Indian GAAP and accounting practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

- 58. *Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.***

Our Company is incorporated in India, and all our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and therefore our results of operations, may include:

- any increase in Indian interest rates or inflation;
- political instability, a change in government or a change in the economic and deregulation policies;
- domestic consumption and savings;

- balance of trade movements, namely export demand and movements in key imports (oil and oil products);
- annual rainfall which affects agricultural production;
- any exchange rate fluctuations;
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian consumers and Indian corporations;
- changes in India's tax, trade, fiscal or monetary policies;
- occurrence of natural or man-made disasters;
- prevailing regional or global economic conditions, including in India's principal export markets; and
- other significant regulatory or economic developments in or affecting India or its education and technology sector.

High rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins. Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely impact our business, results of operation, cash flows and financial condition and the price of the Equity Shares.

59. *Communal disturbances, riots, terrorist attacks and other acts of violence or war involving India and/or other countries, health epidemics and natural calamities could adversely affect India's economy and the financial markets, result in loss of client confidence, and adversely affect the price of our Equity Shares, our business, results of operations and financial condition.*

India has experienced communal disturbances, terrorist attacks and riots during earlier years. Any major hostilities or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business and may adversely affect the Indian stock markets where our Equity Shares will trade as well as global equity markets generally. Such acts could negatively impact business sentiment and consumer confidence, which could adversely affect our business and profitability.

India and other countries may enter armed conflict or war with other countries or extend pre-existing hostilities. Military activity or terrorist attacks could adversely affect the Indian economy by, for example, disrupting communications and making travel more difficult. Such events could also create a perception that investments in Indian companies involve a higher degree of risk. This could adversely affect client confidence in India, which could have a negative impact on the economies of India and other countries, on the markets for our products and services and on our business.

Since 2003, outbreaks of severe acute respiratory syndrome in Asia, avian influenza across Asia and Europe, Ebola virus in western Africa, and Influenza A (H1N1) and recent Covid19 pandemic across the world have adversely affected a number of countries including India and companies. Any future outbreak of infectious diseases or other serious public health epidemics may have a negative impact on the economies, financial markets and level of business activity in affected areas, which may adversely affect our business. India has also experienced natural calamities such as earthquakes, floods, drought and a tsunami in the recent past. The length and severity of these natural disasters determine the extent of their impact on the Indian economy. Prolonged spells of abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy.

Such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares, and adversely affect our business, results of operations and financial condition.

60. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares and/or the ability of others to acquire us, which could prevent us from operating our business or entering a transaction that is in the best interests of our shareholders.*

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions), if they comply with the valuation and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such requirements and does not fall under any of the exceptions specified by the RBI, then the RBI's prior approval is required. Additionally, shareholders who seek

to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all.

Additionally, as an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources for our business and could therefore constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business, results of operations and financial condition.

61. *Changes in laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax law could adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

Taxes and other levies imposed by the Government of India or state governments in India that affect our industry include GST and other levies, income tax and other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time. Any adverse change in Indian tax rules and regulations or policy may have an adverse effect on our business, financial condition and results of operations.

We have not determined the impact of such proposed legislations on our business. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

62. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if STT has been paid on the transaction upto Rs. 1 lakhs. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid to an Indian resident, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the equity shares will be exempt from taxation in India in cases where the exemption is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

63. *A decline in India's foreign exchange reserves may affect liquidity and interest rates in the Indian economy, which could adversely affect us.*

A decline or future material decline in India's foreign exchange reserves could impact the valuation of the Rupee and could result in reduced liquidity and higher interest rates which could adversely affect our business, results of operations and financial condition.

64. *If certain labour laws become applicable, our profitability may be adversely affected.*

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on

employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

65. The continuing effect of the COVID-19 pandemic on our business, results of operations and financial condition is highly uncertain and cannot be predicted.

The outbreak, or threatened outbreak, of any severe communicable disease (particularly COVID-19) could adversely affect the overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The outbreak of COVID-19 has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines and lockdowns. These measures have impacted and may further impact our workforce and operations, the operations of our consumers. In case there is a rapid increase in severe cases of infections leading to deaths, where the measures taken by governments are not successful or are any bans imposed by the government in this regard are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. If any of our employees were suspected of contracting COVID-19 or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general. The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of COVID- 19 will cause an economic slowdown and it is possible that it could cause a global recession.

Assumptions for working capital requirements

The following table sets forth the details of the holding period (with days rounded to the nearest whole number) considered for financial years ended March 31, 2024 March 31, 2023, and March 31, 2022, as well as estimated for financial year ended, March 31, 2025 & March 31, 2026.

Particulars	Unit	March 31, 2022	March 31, 2023	March 31, 2024	March 31, 2025	March 31, 2026
		Audited			Estimated	
Debtors	Days	299	207	205	210	210
Creditors	Days	219	101	119	67	63
Inventories	Days	372	222	263	239	219

Justification:

Debtors	The historical holding days of trade receivables has been ranging from 205 days to 299 days during Fiscal 2022 to Fiscal 2024. As per the current credit terms and prevalent trend of the industry & in order to expand company's operations, the holding level for debtors is anticipated at 210 Days of total revenue from operations during Fiscal 2025 and 2026. The projected increase in trade receivables days is a strategic decision aimed at fostering higher sales growth. We intend to provide our customers with extended credit periods, allowing them more time to settle their invoices. By offering this flexibility, we expect to stimulate increased sales volume and foster stronger customer relationships. Further, due to the seasonality of business the debtors increase at a higher level during the last quarter of financial year followed by first half and streamline gradually later quarters (major sales in CBSE boards schools occurs during the period February to March and the sales to State Boards happen majorly during March to June period).
Creditors	Past trend of Trade payables holding days has been in the range of 101 days to 219 days approximately during Fiscal 2022 to Fiscal 2024. However, with additional working capital funding, our Company intends to reduce trade payables to 67 & 63 days during Fiscal 2025 and 2026 to avail cash discount as well as competitive purchase price to increase overall profitability of our Company. By reducing the time, it takes to settle our payables we aim to negotiate more favourable terms and conditions with our suppliers, enabling us to access competitive pricing for the services we receive.
Inventories	The historical holding days of inventories has been ranging from 222 days to 372 days during Fiscal 2022 to Fiscal 2024. ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS

The information provided below sets out the special tax benefits available to the Company and the Equity Shareholders under the Income Tax Act, 1961 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

A. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE COMPANY:

- The Company is not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

B. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS:

- The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

NOTES:

1. The above Annexure of special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
2. The above Annexure covers only the special tax benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This Annexure also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
3. The above Annexure of special tax benefits is as per the current direct tax laws relevant for the assessment year 2024-25. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.
4. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.
5. A new Section 115BAA has been inserted by the Taxation Laws (Amendment) Act, 2019 ('the Amendment Act, 2019') with effect from Financial Year 2019-20 granting an option to domestic companies to compute corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and cess of 4%), provided such companies do not avail specified exemptions/ incentives. The option under section 115BAA of the Act once exercised cannot be subsequently withdrawn for any future financial year. The Amendment Act, 2019 further provides that domestic companies availing such option will not be required to pay Minimum Alternate Tax ('MAT') under Section 115JB. The CBDT has further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises option of lower tax rate under Section 115BAA, MAT credit would not be available.

In such a case, the Company is not allowed to claim any of the following deductions/ exemptions under the Act: -

- ✓ Deduction under the provisions of Section 10AA.
- ✓ Deduction under clause (ia) of sub-section (1) of Section 32 (additional depreciation).

- ✓ Deduction under section 35AD or Section 35CCC
- ✓ Deduction under section 80G

Lower corporate tax rate under Section 115BAA of the Act and Minimum Alternate Tax ('MAT') credit under section 115JAA of the Act which are in general available and hence may not be treated as special tax benefits.

The Company has evaluated and decided not to exercise the option permitted under Section 115BAA of the Act for the purpose of computing its income-tax liability for the Financial Year 2020-21 to Financial Year

2021-22, however, the Company is decided to exercise the option for Financial Year 2022-23.

6. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.
7. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Industry Overview

Global economic activity continues to soften, amid the effects of tight monetary policies, restrictive financial conditions, and weak global trade growth. After a sharp slowdown in 2022 and another decline last year, global output growth is set to edge down in 2024, marking the third consecutive year of deceleration. The recent conflict in the Middle East has heightened geopolitical risks and raised uncertainty in commodity markets, with potential adverse implications for global growth. Near-term prospects are diverging. Growth in advanced economies as a whole and in China is projected to slow in 2024 to well below its 2010-19 average pace. Meanwhile, aggregate growth is set to improve in EMDEs with strong credit ratings, remaining close to pre-pandemic average rates. Although overall growth is also expected to firm somewhat from its 2023 low in EMDEs with weak credit ratings, the outlook for many such countries remains precarious, given elevated debt and financing costs, and idiosyncratic headwinds such as conflict. Global headline and core inflation have continued to decline from 2022 peaks. Nonetheless, inflation remains above target in most advanced economies and about half of inflation-targeting EMDEs. Global inflation is projected to remain above its 2015-19 average beyond 2024. Monetary tightening in advanced economies is concluding, but real policy interest rates are expected to remain elevated for some time, as inflation returns to target only gradually. This will keep the stance of advanced-economy monetary policies restrictive in the near-term, following the largest and fastest increase in U.S. real policy rates since the early 1980s. Long-term yields on advanced-economy government bonds were volatile in 2023, reflecting shifting expectations about the path of future interest rates and sizable movements in term premia. Although yields have retreated from their late-October peaks, they still imply increased fiscal vulnerabilities, given that median global government debt has risen by 20 percentage points of GDP since 2007, when U.S. yields were last at their current levels. The drag on growth from monetary tightening is expected to peak in 2024 in most major economies, assuming an orderly evolution of broader financial conditions. Thus far, headwinds to growth from elevated interest rates have been offset, to some degree, by households and firms spending out of savings buffers, resilient risk appetite, and extended maturities on stocks of low-cost debt, as well as by expansionary fiscal policy in some cases, most notably the United States.

A. Growth, by economy and EMDE credit rating

B. Global consumer price inflation

Global trade growth in 2023 was the slowest outside global recessions in the past 50 years, with goods trade contracting amid anemic global industrial production. Services trade has continued to recover from the effects of the pandemic, but at a slower pace than previously expected. Global trade growth is projected to pick up to 2.3 percent in 2024, partly reflecting a recovery of demand for goods and, more broadly, in advanced-economy trade.

The recent conflict in the Middle East has so far had only a muted impact on commodity prices. In 2023 as a whole, most commodity prices weakened to varying degrees; however, they remain above pre-pandemic levels. Despite recent volatility triggered mainly by the conflict, and assuming hostilities do not escalate, average oil prices in 2024 are projected to edge down as global growth weakens and oil production increases. Metal prices are set to decline again as the slower growth in China further weighs on metal demand. Food prices are expected to soften further this year amid ample supplies for major crops but remain elevated.

Against this backdrop, global growth is estimated to have weakened last year to 2.6 percent. Although this is 0.5 percentage point higher than last June’s forecast, it is mainly due to better than-expected growth in the United States. Global growth is forecast to slow again, to 2.4 percent in 2024. This deceleration reflects softening labor markets, reduced savings buffers, waning pent-up demand for services, the lagged effects of monetary tightening, and fiscal consolidation.

C. U.S. real interest rate cycles

D. Contributions to global trade growth

Over 2020-24, the forecast entails the weakest start to a decade for global growth since the 1990s—another period characterized by geopolitical strains and a global recession. Global growth is projected to pick up to 2.7 percent in 2025, as inflation continues to slow, interest rates decline, and trade growth firms. Advanced-economy growth is set to bottom out at 1.2 percent in 2024 as growth in the United States slows, while euro area growth, which was feeble last year, picks up slightly as lower inflation boosts real wages. In 2025, growth in advanced economies is forecast to pick up to 1.6 percent as the euro area continues to recover and U.S. growth edges up toward its long-term trend rate amid declining inflation and more supportive monetary policy. Growth in EMDEs is forecast to average 3.9 percent a year over 2024-25. China’s growth is expected to slow notably this year, as tepid consumer sentiment and a continued downturn in the property sector weigh on demand and activity. Excluding China, EMDE growth is set to firm from 3.2 percent in 2023 to 3.5 percent this year and 3.8 percent in 2025. This pickup reflects a rebound in trade and improving domestic demand in several large economies, as inflation continues to recede. Nonetheless, elevated borrowing costs will continue to squeeze fiscal space in EMDEs: U.S. dollar-denominated bond yields are well above the growth rates of nominal GDP in many countries, especially those with weaker creditworthiness. Although growth in low income countries (LICs) is forecast to firm, this will follow a feeble recovery from 2020, with violence and political instability in some countries curtailing activity last year. In all, the EMDE recovery from the 2020 pandemic recession remains modest. This reflects the negative effects of headwinds such as tight global financial conditions, a weak recovery in global trade, sharp domestic monetary tightening to tame inflation, the marked slowdown in China, and increased conflict. It also reflects the longer term downtrend in EMDE potential growth, including in China, due to decelerating investment and productivity growth, slowing labor force growth amid population aging, and the diminishing growth benefits of improvements in education and health (Kose and Ohnsorge 2023).

E. Global growth

F. EMDE bond yields minus nominal growth rates

Aggregate EMDE output is projected to continue following a lower path than was expected before the pandemic. As such, progress closing the gap in per capita income with advanced economies will remain limited, with EMDEs excluding China and India making no relative gains between 2019 and 2025. Many vulnerable EMDEs are falling further behind—this year, per capita income is forecast to be below its 2019 level in over one third of LICs and more than half of countries marred by fragility and conflict. Risks to the outlook remain tilted to the downside, although they have become somewhat more balanced since June, following continued declines in inflation and the stabilization of advanced-economy banking systems after stresses early last year. Intensification of these conflicts, or increasing geopolitical tensions elsewhere, could have adverse global repercussions through commodity and financial markets, trade, and confidence. Recent attacks on commercial vessels transiting the Red Sea have already started to disrupt key shipping routes, eroding slack in supply networks and increasing the likelihood of inflationary bottlenecks. In a setting of escalating conflicts, energy supplies could also be substantially disrupted, leading to a spike in energy prices. This would have significant spillovers to other commodity prices and heighten geopolitical and economic uncertainty, which in turn could dampen investment and lead to a further weakening of growth. Moreover, a range of possible developments—including unexpectedly stubborn inflation in advanced economies requiring higher interest rates than assumed, or rising term premia in bond yields—could precipitate a souring of risk appetite in global financial markets and a sharp tightening of financial conditions, with adverse effects on EMDEs. Weaker-than-projected growth in China could cause a sharper deceleration in global economic activity than expected. The slowdown in global potential growth could be exacerbated by further increases in trade restrictions and escalating fragmentation of trade and investment networks. Furthermore, the adverse effects of climate change could worsen beyond current expectations, with changing weather patterns contributing to more frequent and severe natural disasters, as well as worsening the incidence of extreme poverty. On the upside, resilient economic activity and declining inflation in the United States could be sustained, even in the face of substantial headwinds, if aided by further labor supply improvements. There is therefore a possibility that U.S. growth continues to be stronger than projected as price pressures recede and monetary policy is eased, which would bolster global activity. If any of the aforementioned downside risks were to materialize, they could lead to weaker growth than projected in the baseline. Alternative downside scenarios—including higher oil prices due to an escalation of geopolitical tensions, financial stress in EMDEs that leads to surging sovereign spreads, and weaker growth in China resulting in adverse global spillovers via commodity and other channels—show that in each case global growth in 2024 would be reduced by 0.2 percentage point below the baseline. In contrast, an upside scenario with higher-than expected U.S. growth due to continuing strong supply conditions could boost global growth by 0.2 percentage point this year. The weak global growth outlook and the various downside risks highlight the challenges facing policy makers around the world. At the global level, coordinated improvements in debt relief, especially for the poorest countries, will be necessary to free up resources for growth enhancing investments in human and physical capital. Otherwise, mounting debt-service costs and slow progress in debt restructuring could exacerbate the difficulties facing many EMDEs. Already, about half of LICs and many middle-income countries are either in, or at high risk of, debt distress. Enhanced international cooperation is also required to tackle the existential threat of climate change, including by accelerating the clean energy transition, helping countries improve energy security and affordability, and incentivizing the investments needed to pursue a path toward resilient, low-carbon growth.

In addition, the global community needs to guard against the fragmentation of trade and investment networks, including by prioritizing a rules-based international trading system and expanding trade agreements. Furthermore, global cooperation is critical to address the pressing issues of mounting food insecurity and conflict. Policy makers at the national level also face formidable challenges, which will require careful calibration of competing priorities. With inflation projected to continue moderating, policy interest rates are set to ease across many EMDEs over 2024 and 2025. However, monetary policy easing in EMDEs could be constrained by narrowing interest rate differentials relative to advanced economies, which could heighten the risk of capital outflows and currency

depreciations. Renewed surges in advanced economy yields—driven, for instance, by upside inflation surprises or rising term premia—could also trigger disruptions in EMDE financial markets. Careful attention to risks is therefore required to ensure that monetary policy supports sustainable growth while helping to durably bring down inflation, and to maintain financial stability, particularly in EMDEs with large fiscal and current account deficits. Fiscal policy space in EMDEs remains narrow amid weak revenues and rising debt-servicing costs. Elevated debt, combined with tight financial conditions and tepid growth, is putting further pressure on longer-term fiscal sustainability, while increasing vulnerability to external financial shocks. For EMDEs with weak credit ratings, these pressures have already crystallized such that international capital markets have effectively been closed to them for two years. In the face of exigent borrowing costs, governments in EMDEs, including LICs, need to scale up revenue mobilization and spending efficiency and bolster debt management. Measures to strengthen government institutions more broadly can support these efforts. Commodity-exporting EMDEs face particular fiscal challenges from fluctuations in commodity prices. A sustainable, well designed, stability-oriented fiscal framework, combined with strong institutions, can help governments build buffers during commodity price booms that can be drawn upon during subsequent slumps. Reversing the ongoing weakening of potential growth and its underlying drivers, including investment and productivity growth, will require decisive structural reforms, including measures to promote trade and financial liberalization, develop human capital and infrastructure, close gender gaps, increase labor force participation, and promote innovation. Such reforms—together with policies that ensure macroeconomic stability, including the adoption of inflation targeting where not already credibly in place—can form comprehensive packages of beneficial policies. Implementing these policy packages, with judicious sequencing, can help to spark sustained investment accelerations, which have a strong track record of delivering transformative growth. The presence of well-functioning institutions also raises the chances of igniting an investment acceleration and securing improved long-term growth performance.

Indian Economy overview

India is one of the fastest growing economies of the world and is poised to continue on this path, with aspirations to reach high middle-income status by 2047, the centenary of Indian independence. It is also committed to ensuring that its continued growth path is equipped to deal with the challenges of climate change, and in line with its goal of achieving net-zero emissions by 2070.

The growth of the past two decades has also led to India making remarkable progress in reducing extreme poverty. Between 2011 and 2019, the country is estimated to have halved the share of the population living in extreme poverty - below \$2.15 per person per day (2017 PPP) (World Bank Poverty and Inequality Portal and Macro Poverty Outlook, Spring 2023). In recent years, however, the pace of poverty reduction has slowed especially during the COVID-19 pandemic, but has since moderated in 2021-22.

Certain challenges persist. Inequality in consumption continues, with a Gini index of around 35 over the past two decades. Child malnutrition has remained high, with 35.5 percent of children under the age of 5 years being stunted, with the figure rising to 67 percent for children in the 6-59 months age group. Headline employment indicators have improved since 2020 but concerns remain about the quality of jobs created and the real growth in wages, as well as around the low participation of women in the laborforce.

India's aspiration to achieve high income status by 2047 will need to be realized through a climate-resilient growth process that delivers broad-based gains to the bottom half of the population. Growth-oriented reforms will need to be accompanied by an expansion in good jobs that keeps pace with the number of labour market entrants. At the same time, gaps in economic participation will need to be addressed, including by bringing more women into the workforce.

The World Bank is partnering with the government in this effort by helping strengthen policies, institutions, and investments to create a better future for the country and its people through green, resilient, and inclusive development.

Economic Outlook

After real GDP contracted in FY20/21 due to the COVID-19 pandemic, growth bounced back strongly in FY21/22, supported by accommodative monetary and fiscal policies and wide vaccine coverage. Consequently, in 2022, India emerged as one of the fastest growing economies in the world, despite significant challenges in the global

environment – including renewed disruptions of supply lines following the rise in geopolitical tensions, the synchronized tightening of global monetary policies, and inflationary pressures.

In FY22/23, India’s real GDP expanded at an estimated 6.9 percent. Growth was underpinned by robust domestic demand, strong investment activity bolstered by the government’s push for investment in infrastructure, and buoyant private consumption, particularly among higher income earners. The composition of domestic demand also changed, with government consumption being lower due to fiscal consolidation.

Since Q3 FY22/23, however, there have been signs of moderation, although the overall growth momentum remains robust. The persisting headwinds – rising borrowing costs, tightening financial conditions and ongoing inflationary pressures – are expected to weigh on India’s growth in FY23/24. Real GDP growth is likely to moderate to 6.3 percent in FY23/24 from the estimated 6.9 percent in FY22/23.

Both the general government fiscal deficit and public debt to GDP ratio increased sharply in FY20/21 and have been declining gradually since then, with the fiscal deficit falling from over 13 percent in FY20/21 to an estimated 9.4 percent in FY22/23. Public debt has fallen from over 87 percent of GDP to around 83 percent over the same period. The consolidation has largely been driven by an increase in revenues and a gradual withdrawal of pandemic-related stimulus measures. At the same time, the government has remained committed to increasing capital spending, particularly on infrastructure, to boost growth and competitiveness.

- A. **Content Creation for Technology Platform** - Our authors create curriculum-based content (as a manuscript) for students to understand the subject. The final manuscript is sent for designing. Once the design and proof reading are complete, the final artwork is handed over to the graphic team for creating 2D/ 3D or Live videos. Post the final cut, it goes to a voice over artist to record in the recording studio. The voice and video are synced in the studio and the final digital content is uploaded on the tech platform. The student accesses the

relevant videos with the help of QR codes provided in our books. The QR codes are generated by us using an application created in-house.

Specific Relief Act, 1963

The Specific Relief Act, 1963 is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing

individual civil rights and not for the mere purpose of enforcing a civil law. Specific performance means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

Consumer Protection Act, 2019 (“Consumer Protection Act”) and Rules Made Thereunder

The Consumer Protection Act was designed and enacted to provide simpler and quicker access to redress consumer grievances. In addition to awarding compensation and/or passing corrective orders, the forums and commissions under the Consumer Protection Act, in cases of misleading and false advertisements, are empowered to impose imprisonment for a term which may extend to two years and fine which may extend to ten lakhs.

In line with the Consumer Protection Act, the Ministry of Consumer Affairs, Food and Public Distribution, Government of India (“Ministry of Consumer Affairs”) has also notified the Consumer Protection (E-Commerce) Rules, 2020 (“E-Commerce Rules”) on July 23, 2020, which provide a framework to regulate the marketing, sale and purchase of goods and services online. Code of Civil Procedure, 1908

The Code of Civil Procedure, 1908 is a procedural law related to the administration of civil proceedings in India. The Civil Procedure Code consolidates and amends the law relating to the procedure of the Courts of Civil jurisdiction. The Code of Civil Procedure is an adjective law it neither creates nor takes away any right. It is intended to regulate the procedure to be followed by Civil Courts. The Civil Procedure Code consists of two parts. 158 Sections form the first part and the rules and orders contained in Schedule I form the second part. The object of the Code generally is to create jurisdiction while the rules indicate the mode in which the jurisdiction should be exercised.

The Code does not affect any special or local laws nor does it supersede any special jurisdiction or power conferred or any special form of procedure prescribed by or under any other law for the time being in force. The Code is the general law so that in case of conflict between the Code and the special law the latter prevails over the former. Where the special law is silent on a particular matter the Code applies, but consistent with the special enactment.

Code of Criminal Procedure Code, 1973

It is the main legislation on procedure for administration of substantive criminal law in India. It was enacted in 1973 and came into force on 1st April, 1974. It provides the machinery for the investigation of crime, apprehension of suspected criminals, collection of evidence, determination of guilt or innocence of the accused person and the determination of punishment of the guilty.

Criminal law occupies a pre-dominant place among the agencies of social control and is regarded as a formidable weapon that society has forged to protect itself against anti-social behaviour. The law of criminal procedure is

meant to be complimentary to criminal law. It is intended to provide a mechanism for the enforcement of criminal law. The Code of Criminal Procedure creates the necessary machinery for apprehending the criminals, investigating the criminal cases, their trials before the criminal courts and imposition of proper punishment on the guilty person. The Code enumerates the hierarchy of criminal courts in which different offences can be tried and then it spells out the limits of sentences which such Courts are authorized to pass.

The law of criminal procedure is intended to provide a mechanism for the enforcement of criminal law. Without the proper procedural law, the substantive criminal law which defines offences and provides punishment for them would be almost worthless.

Prevention of Money Laundering Act, 2002

Money laundering is the processing of criminal proceeds to disguise its illegal origin. Terrorism, illegal arms sales, financial crimes, smuggling, and the activities of organized crime, including drug trafficking and prostitution rings, generate huge sums. Embezzlement, insider trading, bribery and computer fraud also produce large profits and create an incentive to legitimise the ill-gotten gains through money laundering. When a criminal activity generates substantial profits, the individual or group involved in such activities route the funds to safe heavens by disguising the sources, changing the form, or moving the funds to a place where they are less likely to attract attention.

A notice must be given before seeking consent, except in case of legitimate uses as provided under the DPDP Act. It further imposes certain obligations on data fiduciaries including (i) make reasonable efforts to ensure the accuracy and completeness of data, (ii) build reasonable security safeguards to prevent a data breach, (iii) inform the Data Protection Board of India (the “DPB”) and affected persons in the event of a breach, and (iv) erase personal data as soon as the purpose has been met and retention is not necessary for legal purposes (storage limitation). The autonomy of the arbitral tribunal has further been strengthened by empowering them to decide on jurisdiction and to consider objections regarding the existence or validity of the arbitration agreement.

The Energy Conservation (Amendment) Act, 2022

The Energy Conservation Act, 2001 was enacted to provide for efficient use of energy, its conservation and for matters connected therewith and/ or incidental thereto. The amended Act provides for regulation of energy consumption by equipment, appliances, vehicles, vessels, industrial units, buildings or establishments that consume, generate, transmit or supply energy. With special focus on promotion of new and renewable energy and the National Green Hydrogen Mission, the amendment seeks to (i) facilitate the achievement of “Panchamrit” — the five nectar elements presented by India in COP-26 (Conference of Parties -26) in Glasgow 2021.

GAAP comprises the Accounting Standards notified u/s S.133 read with S.469 of the Companies Act, 2013. The accounting policies have been framed, keeping in view the fundamental accounting assumptions of Going Concern, Consistency and Accrual, as also basic considerations of Prudence, Substance over form, and Materiality. These have been applied consistently, except where a newly issued accounting standard is initially adopted or a revision in the existing accounting standards require a revision in the accounting policy so far in use. The need for such a revision is evaluated on an ongoing basis.

The Financial Statements have been prepared on a going concern basis, in as much as the management neither intends to liquidate the company nor to cease operations. 2. USE OF ESTIMATES

The preparation of financial statements required the management to make estimates and assumptions that affect the reported balance of assets and liabilities, revenues and expenses and disclosures relating to contingent liabilities. The Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Future results could differ from these estimates. Any revision of accounting estimates is recognized prospectively in the current and future periods.

Business Overview

We are a content-based company, specializing in educational book publishing for the CBSE/State Board curriculum catering to the K-12 segment. Additionally, we provide access to educational software for learning videos (for teachers and Students) accessible through QR (Quick Response) codes, backed by a comprehensive sales and distribution network. We currently focus on serving the Maharashtra State Board and Central Board of Secondary Education (CBSE), covering the spectrum of education books from early pre-primary learning to K-12 course. During the Fiscal year 2023, we sold over 6 million books, covering students across different standards ranging from pre-primary, primary, secondary, and higher secondary levels.

We have established a portfolio of over 700 titles as of 2023 with 15 distinct brands. Some of the names in our lineup include Master Key, Self-Study, Firefly, Bright Buddies, My Skill Book, Grade Me, QR series etc. Apart from publishing books, we are also involved in developing a range of digital content for enhanced understanding of topics for students and aim to make the content more viable for a better learning experience. We have over the years produced over 30,000 videos that can be accessed via QR codes, which could help transform traditional content into digital formats, facilitating the students for further self-studies post school and tutorials without any additional cost. This has been achieved through a strategic partnership with Allern Enterprises Private Limited, an Edtech company.

Chetana's network encompasses numerous schools, coaching classes and booksellers, supported by collaborations with different vendors in printing, paper sourcing, binding, lamination and packaging. Partnerships with over 400 contractual authors contributing to the content creation for the company. While we have strategically opted for partnerships with printers and binders in India, our decision to remain asset-light underscores our commitment to operational agility and cost optimization and absolute focus on content development for the education sector and effective sales and distribution.

Our company was incorporated as a Limited liability partnership during the year 2018 by our promoters Anil Jayantilal Rambhia and Rakesh Jayantilal Rambhia, with the vision to make its presence in the education sector. Our Company during the year 2018 purchased the Publication undertaking from M/s Chetana Book Depot (partnership firm of our promoters) founded by Late Shri Jayantilal D. Rambhia in 1975 and Chetana Publication, a partnership firm was set up in 1997 and converted into Chetana Publication Private Limited (our group company) in 2005. We have over the years established our presence across 18 states and Union Territories in India. We have developed a supply chain by rationalizing and integrating our procurement, manufacturing and logistic capabilities. Our outsourced print facilities and own distribution networks are supported by our logistics network, which comprised of one centrally located warehouse in Bhiwandi, near Mumbai, Maharashtra supported by two C&F facilities catering to North and South India in Delhi and Karnataka respectively to allow coverage across India. Our paper purchases are integrated, which helps us to achieve economies of scale and improves our bargaining power with raw material suppliers.

Our distribution and sales network consists of over 500 distributors and dealers, and we have an in-house sales team working from our branches and marketing offices across India. We consider our schools, teachers and students to be our “touch points” and our sales team is responsible for developing the relationships with our customers in our pre-

primary, primary, secondary and higher secondary learning businesses. Along with marketing our content directly to educators and schools to place our products on prescribed and recommended reading lists, we also market our products directly to distributors and dealers.

SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and the provisions of this circular are deemed to form part of this Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Investors in initial public Issue (opening on or after May 1, 2022) whose application sizes are up to ₹ 500,000 shall use the UPI Mechanism.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public Issue from existing 6 working days to 3 working days from the date of the closure of the Issue. time.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public Issue of inter alia, equity shares. Pursuant to the SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 ("Previous UPI Circulars") and the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public Issue closure to listing from three Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars and the Previous UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 until March 31, 2019 or floating of five main board public Issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Applicant had the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing continued to be three Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public Issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public Issue closure to listing continues to be three Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all Issues opening on or after September 1, 2023 and on a mandatory basis for all Issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI

The Issue is being made under Phase III of the UPI (on a mandatory basis).

The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22.00 in the above example. RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the “FDI Policy”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.
